

NCAA DIVISION I VOLLEYBALL RECRUITING RULES

“What to Expect with the new Rule Changes”

Why did the NCAA adopt new Recruiting Rules in Division I Volleyball?

Division I college volleyball coaches, parents, and club/high school coaches are concerned that kids are being encouraged to make a college decision too early in their high school careers. The new Division I volleyball recruiting rules that were adopted August 1st, 2018, in addition to the new legislation from the NCAA, aims to slow down the early recruiting process. The goal is that the recruiting process will START for prospective Division I volleyball players after June 15th of their sophomore year in high school.

CURRENT RECRUITING RULES & DEFINITIONS

A Prospective Student-Athlete (PSA) is any student-athlete who has started 9th grade or older.

CAMPS

How can a PSA visit a Division I school and be able to interact with the coaches before September 1st of their Junior Year in High School?

The only way a PSA can currently visit a Division I school and have face-to-face contact with college coaches is through a camp. Thus, you may have seen many institutions running many smaller camps on their campus to still get young PSAs on campus. **NO RECRUITING CONVERSATIONS ARE TO OCCUR DURING THESE CAMPS, but campus tours, athletic facility tours, and information about the school/athletic programs is allowable. These camps need to be advertised publicly and must be open to any and all.**

NEW RECRUITING RULES

Significant New Rule Change—There can be NO communication (calls/texts) between a PSA or PSA's family and college coaches along with athletic department staff members whatsoever anytime before June 15th of the conclusion of your Sophomore Year in High School. With this in mind, a PSA should not know who is interested in offering them a scholarship or spot on their team until that time.

Significant New Rule Change—Communication through a club or high school coach to be relayed back to a PSA is IMPERMISSIBLE. Emails from college coaches to club, high school coaches or recruiting services CANNOT be forwarded onto a PSA or PSA's family.

Questions

When does this go into effect?

These new rules will go into effect May 1, 2019.

What if I want to attend a game before my Junior Year?

Yes, you can still attend a Division I volleyball game on your own dime, but are NOT allowed to have any communication with the coaches. If you are old enough to take an unofficial or official visit, the school can provide you and your family a certain number of complimentary tickets and you are allowed to have communication with the coaches.

What if I have already made a verbal commitment or have already been calling/texting Division I Coaches? Can I still talk to them?

No, even if you have made an early verbal commitment or have called a college coach and have gotten to know them and their program, you still must abide by the timeframes of these new rules. So if you are a 2021, 2022 or beyond graduate, you no longer can call the coach, nor can the college coach send any information to your club/high school coach to be passed along to you. Communication can resume June 15th AFTER your sophomore year.
